Barbie (™) Silhouette

The infamous Barbie (™) silhouette is a great idea for your theme party!

You can place it in frames with pink glitter backgrounds, use it as a cameo, cut out for confetti, the focal point for centerpieces, the design on favors, and

Barbie (™) Boxes

How to Make a Barbie (™) Box:

-You can use a box from a refrigerator, a television, you can order one from online (amazon), or ask a local business if you can use a box they don't need.

-Carefully cut out a window in the front. In the back, cut along the top, side, and bottom to create a "door".

-Using paint, wrapping paper, or even paper mache, you can then decorate the outside of your box.

-Using printed out letters, paste them on the bottom or top of your box along with any other designs you wish to have.

-You can then decorate the inside with whatever material you wish.

-You can then place plastic on the inside of the window to give the illusion of a life-size doll.

*For something for the kids, give outfits for Malibu Barbie (™), Barbie (™) vet, Hollywood Barbie (™), etc. It works as a sort of dress up to keep them entertained.

*Look for outfits around Halloween (when they have their clean out sales) You can then get outfits for a few dollars!
